5. Drawing, Classification

Generally, the age groups are drawn separately. If the number of competitors is very small in one or several of the five years age groups, neighbored 5 years age groups may be joined for drawing and speedskating. But the allotting of track on the third distance is decided by the ranking after two distances for each 5 years age group, and not by the ranking in the joined, neighbored groups. The final distance drawing and classification must be done in her/his own age group independent of the number of participants in that age group.

The winner of the sprint combination in a five years age group is the skater who has completed successfully all distances and has obtained the lowest total of points.

6. Prices and Minutes

All participants, who skate successfully the four distances contest, obtain a certificate and minutes including end times. The Places 1, 2 and 3 of each 5 years group obtain a medal.
